Frankfurt (Main), 17 May 2018 STRABAG Property and Facility Services GmbH (STRABAG PFS) has recorded another success in its sales campaign: Starting from 1 October 2018, it will perform technical facility management (FM) for numerous locations of Commerzbank AG, and in particular the 259-metre “Commerzbank Tower”, one of Frankfurt’s architectural landmarks.

This was preceded by the publication of the “FM-Modell 4.0” call for bids in 2017, in which Commerzbank divided its properties into 12 regions. STRABAG PFS was awarded the contract for the Nuremberg region (usable area approx. 62,000 m²), the Frankfurt region (usable area approx. 360,000 m²) and comdirect in Quickborn (usable area approx. 24,000 m²). All in all, STRABAG PFS will look after 234 Commerzbank locations, including branches, office and administrative buildings and a data centre.

The contract was concluded for six years until 31 December 2024 and the start-up phase is already in progress. The parties have agreed not to disclose the volume of the contract.

Dirk Brandt, Managing Director of Technical Facility Management at STRABAG PFS: “Commerzbank is a major customer for whom we have been performing technical FM services since 2013. We are delighted that they have recognised our price/performance ratio and technical expertise in awarding us this contract.”
